

Please help us to maintain the standards on the Course and in the Clubhouse we all enjoy by:

- Observing the dress code
- Not using mobile phones other than in the designated areas
- Avoiding slow play. Play 'ready golf'
- Raking bunkers and leaving rakes with the heads in, handles out of the bunkers
- Not taking trolleys into the rough or between bunkers and greens
- Repairing pitch marks
- Replacing divots
- Using the receptacles for litter (including used and broken tees)
- Respecting the wildlife

Many thanks for your co-operation, enjoy your game!

HOW TO REPAIR PITCH MARKS

WRONG!

Pulling on the centre or the sides will leave the centre raised - to be scalped by the next mower and damage will occur to the root structure.

RIGHT

3. Pull both sides of ball mark into the centre. This should close the hole. Then gently tap the ball mark down with your putter.

Only YOU can prevent ball mark damage!

RIGHT

1. Insert green repair tool just outside the back of the divot hole.
2. Pull the back of the divot towards the centre of the pitch mark (not up).

Remember:

WRONG!

1. Do not pull up with green repair tool. This will only bring sand to the surface and tear the root system.

RIGHT

2. Insert tool and pull forward - no damage to the root system.

DID YOU KNOW ?

If a pitch mark is repaired immediately it will only take 48 hours to heal.
An unrepaired mark will take 4 - 6 weeks to heal.

So please repair your pitch mark and one other!
